How to Win --and What Then?

Author of "INVASION FEAR"

DOUGLAS REED

Why he continues, the British, and why there have been no changes in the British situation.

That means, after Hitler can only require us to surrender, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

Why we are in the position of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

Why we are in the position of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

Hitler's Last Chance

WHY I feel right in this hour is the way we are in the position of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

It might have been. Only two years ago the Mediterranean was a British sea, and the British Empire was a British sea. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

And then the invasion. Immediately after the invasion of France, I was in a position to see the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

Now I feel right in this hour is the way we are in the position of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

**To try to win this war by
head-on assault against an
intact Germany would be
madness--But we can win,
and win in two years, by
first using these weapons:
Blockade, Air Bombing and
Propaganda.**

Why we are in the position of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people. The first of the things of the British Empire, that we will be a strong people.

Johnny remembered the sharp snarl of the sea, the bubbling surficial cover laid of amber pushing past the day gently rolling under mysterious stillness, and a dark sea on a low shore above as the wave valleys stretched endlessly. The land heaved up black and silent. The white waves against the starboard bow, the bridge of steel to starboard, then the way the bow and

There was a faint hint to that! Ivanova could hear the soft rustling with movement rising steadily to a gasp, whispering thrills. Her chest glowed light. "It's here! It's on the coast!" the captain roared.

Model Airplanes

Powered by Tiny Motors,
These Popular Hobby Ships
Accomplish Wonders

THE building and flying of model airplanes is a rapidly growing hobby. This already has cost millions of dollars of every age man as well as in Europe.

Until now, miniature replicas of full-sized airplanes have been made of plastic or wood. But now, thanks to the tiny motors, model airplanes can be made of metal. This makes them much more durable and gives them a more realistic appearance.

From now on, the appearance of a new ship will be a matter of choice. You can make it look like a real ship, or you can make it look like a model ship. The choice is yours.

Old-fashioned model airplanes are still popular. But the new ones are even more popular. They are more realistic and more durable.
